

DisplayLink USB Display Adapter

Installation Guide

This guide contains installation instructions for the following operating systems:

1. [Mac OS X / macOS](#)

DisplayLink USB Display Adapter

Installation for Mac

Install Guide

To install the driver:

Note: Do not physically connect the USB video adapter to your computer until instructed to (Step 6).

1. Double-click the **DisplayLink.zip** file.
2. Double-click the **MAC OS** folder.
3. Double-click the **OS 10.8 - 10.12** folder.
4. Double-click the **DisplayLink Installer 75598.dmg** file.
5. Follow the prompts to install the new drivers. Restart the computer when prompted.
6. Once Mac OS X has restarted, connect the USB video adapter to your computer.

Note: Installation might take several seconds to complete. During the installation your display might flicker; this is normal. Once the installation has completed you will see your Macintosh desktop extended to the additional monitor.
